ME LINE PRODUCTS

## 5 STEPS TO DEPIGMENTED AND YOUNGER SKIN

ME LINE treatment. The world's first physically and chemically stable treatment able to eliminate severe and extensive pigment spots in addition to offering anti-aging and recovering properties.

### SCIENTIFIC BACKING

ME LINE is backed up by studies demonstrating its efficacy in terms of both time and results

## DEFINITIVE RESULTS IN JUST 2 SESSIONS

### TOTAL ELIMINATION OF PIGMENT SPOTS WITH NO REBOUND EFFECT

The ME LINE range is able to exfoliate, depigment, hydrate, protect and rejuvenate with highly visible results from the first session, and optimal definitive results in just two months.

Melasma Aging Dark circles Solar lentigines Acne

## "IN VIVO" CLINICAL TRIAL

was carried out on 168 volunteers in order to assess the ME LINE treatment's results as products with proven efficacy and powerful depigmenting and anti-aging actions.

Results: In the hyperpigmentation group, excellent results were seen in 95% of cases, 90% for anti-aging, 85% in seborrheic skin and in 65% of patients with melanic-hematic pigmentation. The immediate side effects were moderate erythema and mild desquamation. There were no complications whatsoever.

Before After

Conclusion: The ME LINE treatment represents a major innovation in the field of Dermocosmetics thanks to its efficacy and versatility, covering a variety of different indications.
